APPROPRIATION MEASURES.

Will Occupy the Attention of the Senate and the House.

Washington, Feb. 4.—The time of both the senate and the house this week will be taken up with the consideration of appropriation bills. In the senate the Indian bill is now under consideration while the house has the river and harbor bill under way. Several days will be required to dispose of each of these measures and when they shall have been finally voted upon the senate will take up the army bill, and the house the naval bill. These four measures will practically monopolize the time of the two bodies, as there are many points in each of them over which there is wide difference of opinion. It is expected that the senate amendments to the Indian Territory matters will develop debate concerning the administration of business in that territory, while the question of big battleships will be fought out in the house in connection with the consideration of the naval bill.

BOTH DRANK LAUDANUM.

The Woman Is Dead But the Man Will Recover.

Auburn, N. Y., Feb. 4.—Asa Kenyon of Onondaga and Mrs. Marie Dedrick of Syracuse, in compliance, according to the police, with suicide pact, each drank the contents of an ounce vial of laudanum in a room at the Exchange hotel. Mrs. Dedrick is dead but it is believed Kenyon will recover. He is under arrest. Kenyon told the police that he and Mrs. Dedrick agreed to die because they were tired of living.

Suicide Delays Wedding.

New York, Feb. 4.—Standing in the doorway of an apartment where guests had assembled to witness a wedding a stranger supposed to be Ulderic Hugron of Waterbury, Conn., blew out his brains. The bride and many women guests became hysterical following the tragedy and the marriage ceremony was delayed.

MANY JAPS IN HAWAII

FIFTEEN THOUSAND TRAINED SOLDIERS ARE NOW ON THE PACIFIC ISLANDS.

DRILLING IN THE MOONLIGHT

JAPANESE AT HONOLULU KEEP IN PRACTICE BY DRILLING IN THE OUTSKIRTS.

San Francisco, Feb. 4.—Mayor Eugene Schmitz and members of the San Francisco board of education have left here for Washington to confer with President Roosevelt in regard to the exclusion of Japanese from the public schools, with a view of reaching a basis of settlement.

Honolulu, Feb. 4.—It is estimated that 65,000 Japanese are now in the Hawaiian islands. Of these 40,000 are adult males, and of this number 15,000 are men trained in arms. Six thousand of them are veterans of the war with Russia, who do not go to work on the plantations, but crowd the hotels here. They come ostensibly as laborers, but customs officers discovered they were veterans wearing medals and carry discharge papers in their baggage.

Gun dealers report an unusually large sale of firearms and ammunition to the Japanese. The Japanese are drilling by moonlight on the outskirts of Honolulu.

RECEIVED WITH SURPRISE.

War Talk of American Press Causes Regret at Tokio.

Tokio, Feb. 4.—The war talk of the American press has been received here with great surprise and sincere regret. The correspondent of the Associated Press talked with several leading men both in and out of the government. They concur in the opinion that the United States is the last country with which Japan would go to war. Besides, both nations are unaggressive in their trade rivalries, which seldom lead to war unless territorial acquisition is intended by either rival. In some quarters the belief is expressed that the misrepresentation that Japan is suffering from on account of the San Francisco school question is the outcome of immunity shown disaffected war correspondents in the late Russian war. It is believed that these correspondents are ever watching for an occasion to victimize Japan. Even those inclined to be caustic ridicule the idea of war with the United States. The Japanese press has been silent so far, apparently considering the matter unworthy of comment.

CONSIDERED UNREASONABLE.

Reported Basis of Settlement of Japanese School Question.

Tokio, Feb. 4.—The report that a settlement of the California trouble is likely to be effected by the exclusion of labor immigration by the United States and Japan is not generally believed here, being considered unreasonable. According to the prevailing feeling any satisfactory solution of the controversy must be based upon Japan's treaty rights.

MRS. LONGWORTH ILL.

Daughter of President Roosevelt a Victim of La Grippe.

Washington, Feb. 4.—Mrs. Alice Roosevelt Longworth, wife of Representative Longworth of Ohio and daughter of the president, is ill at her home in this city with what is stated at her home to be a slight attack of grip. The president and Mrs. Roosevelt spent some time at the Longworth home and were very much concerned about their daughter's health when they were informed by the attending physician that her temperature had gone up to 102. Mrs. Longworth contracted a severe cold while attending the White House reception last Thursday night and has been confined to her bed for three days.

General Flower Dead.

St. Paul, Feb. 4.—General M. D. Flower, postmaster of St. Paul and president of the Union Stock Yards company, died at 7 o'clock p. m. after an illness of less than four days. General Flower was stricken with an acute stomach trouble last Thursday, and his condition soon became critical. This affected the heart action so much that for a day or two his heart action had been hardly perceptible. From the time he was first confined to bed he sank gradually.

Porcelain Works Destroyed.

Trenton, N. J., Feb. 4.—The Imperial porcelain works of this city have been destroyed by fire. The loss is estimated at \$100,000, fully insured.

WHEN NEAR HER DESTINATION.

Bark Run Down and Badly Damaged by a Steamer.

Norfolk, Va., Feb. 4.—After battling with head winds and heavy seas for seventeen days and when within a few hours of her destination, the bark Charles Loring, carrying 380,000 feet of lumber from Savannah to New York, was run into and badly damaged by the Old Dominion line steamer Seneca four miles off Seagirt, N. J. The collision occurred in a dense fog. No one was injured and no lives were lost.

It was with great difficulty that the crew of the steamer, who put off in lifeboats, succeeded in rescuing Captain H. Debuhr and his crew of nine men from the sinking bark. At one time a boat from the Seneca containing six men became lost in the haze and was not picked up again until after two hours of persistent search.

There was a stiff wind blowing and a heavy sea on, but the fog was so thick that the two vessels were not seen by each other until too late to avert the collision. Captain Debuhr blames the Old Dominion liner for the sinking of his craft, while the master of the Seneca puts the responsibility upon the shoulders of the Loring's skipper. The crash occurred at the supper hour and the dining saloon of the Seneca was crowded. When through the fog the Seneca was seen heaving down on the bark, there was no time for putting about. The collision was almost immediate. The bark was nearly torn in twain and the glass in the Seneca's dining room was shattered. A panic among the passengers of the Seneca was quelled by the officers and crew.

Lifeboats were immediately put off by the steamer. Calls for help could be heard through the fog and the rescuers hurried to the side of the Loring. The bark was taking water rapidly. Her cargo of lumber probably prevented her going down with all hands before help could have reached her.

Before leaving the wreck the Seneca placed a warning light on her, but she is directly in the path of coastwise navigation and a dangerous derelict.

ENVELOPED IN MYSTERY.

Dead Body of a Young Woman Found in a Room.

Washington, Pa., Feb. 4.—The body of Miss Francis Martin, eighteen years old, was found in a room in the Forest building in North Main street, early in the morning. Whether she was murdered has not yet been determined.

A young man named John Innes, with whom Miss Martin attended the Lyric theater Saturday night, has been arrested and is being held to await the action of the coroner.

The body was discovered by John V. Cook, stage manager of the Lyric theater, which is across an alley from the Forest building, in which Cook lives. There are indications that the girl died in the Lyric theater building, and that her body was then taken across a little bridge which connects the theater and Forest building.

Cook and his wife say they cannot account for the presence of the body in their room, as they did not know Miss Martin nor had they ever seen her before.

LAWYERS CONSULT THAW.

Noted Prisoner Confers With His Attorneys.

New York, Feb. 4.—Harry K. Thaw, whose trial for the murder of Stanford White will be continued today, was allowed to see three of his counsel for a half hour's conference. Sunday visitors are not as a rule admitted to the Tombs but exception has before been made in a capital case.

When the counsel, Attorneys Delmas, McPike and Orrelly, left the Tombs they said that Thaw was in better spirits than at any time since the trial began. Thaw's keepers, too, said he ate heartily and appeared less nervous than before. He attended service in the chapel and later spent some time reading the newspapers.

DRYDEN HAS WITHDRAWN.

New Jersey Senator Not a Candidate for Re-Election.

Washington, Feb. 4.—United States Senator John F. Dryden of New Jersey has authorized the announcement that he had withdrawn his name as a candidate for re-election to the United States senate.

This action was taken on the advice of the senator's physicians, who warned him of the danger to his health if he persisted in attending the public meeting arranged at his request to be held in Trenton. It was Senator Dryden's intention to address the Republican members of the legislature and set forth the reasons in his opinion, why he should be re-elected to the senate.

Thomas Bailey Aldrich Ill.

Boston, Feb. 4.—Thomas Bailey Aldrich, the author, who has been ill for several days, has undergone a slight operation. The patient is reported as resting comfortably. It is expected that he will have a rapid convalescence.

TWO END THEIR LIVES

UNEMPLOYED LABORERS COMMIT SUICIDE AT MINNEAPOLIS BY INHALING GAS.

THREE FROZEN TO DEATH

WOMAN AND TWO CHILDREN PERISH FROM COLD AT GRAND RAPIDS, MICH.

Minneapolis, Feb. 4.—Two men, George Kirkmyer and Sans Valentine, carried out a suicide pact in a local hotel by inhaling gas. Both men were laborers and had been out of work for some time. They both had said that they were badly in need of money. In the afternoon Valentine made several remarks that they had planned to commit the deed, but friends took the matter as a joke.

The bodies were found side by side in a bed in their room.

THREE FROZEN TO DEATH.

Woman and Two Children Perish From Cold in Michigan.

Grand Rapids, Mich., Feb. 4.—A woman and two children were found frozen to death in an upstairs tenement here with a third child in an adjoining room badly frozen but alive. The dead are:

Emma K. Livingston, single, aged fifty; Alfred L. Livingston, aged seven; Lincoln B. Livingston, aged three.

Helen Livingston, aged ten, was badly frozen.

Miss Jennie Livingston called at the residence to pay a visit and found her sister, Miss Emma Livingston, and one child dead in bed, one child dead on the floor and Helen in an adjoining room badly frozen. None of the family had been seen since Thursday, when two of the children attended school. The children lived with Miss Livingston, who was their aunt. It is supposed that after they retired Thursday night they became partially asphyxiated by coal gas and the fire dying out, they were frozen to death.

GASOLINE LAMP EXPLODES.

Young Man Burned to Death and Young Woman Seriously Injured.

Cleveland, O., Feb. 4.—John Burke, aged twenty-two years, was burned to death and Mary Gardner Masterson, aged twenty years, was seriously burned by an explosion of a gasoline lamp in the home of the latter in West Twenty-sixth street. Burke was paying an evening call and was assisting the young woman in filling the lamp when it exploded, enveloping both of them in flames. The young woman will probably recover. In the room were many fine paintings, one of which was valued at \$1,000, which were badly damaged by the explosion.

HUSBAND AND WIFE DEAD.

Either Suicide Pact or Murder and Suicide.

New York, Feb. 4.—John Liveroni and wife of East Eighteenth street were found asphyxiated in the morning. The bodies were discovered by the young children. Mrs. Liveroni's body was in the bed, while that of her husband sat fully dressed in a chair by the bedside. The police believe the couple formed a suicide pact, or that Liveroni, despondent because of lack of work, turned on the gas after his wife went to sleep.

THREE ASPHYXIATED.

Father and Two Daughters Victims of Gas.

Newark, N. J., Feb. 4.—Jacob Kunz and his daughters, Caroline, aged six years, and Barbara, aged twenty months, are dead and his daughter Jennie, aged nine years, is in a precarious condition as the result of asphyxiation. Kunz and his three daughters were asleep in the same bed, while Mrs. Kunz, who was not affected, was asleep in an adjoining room.

Kills His Mother.

Duluth, Feb. 4.—The news that David Aho, a young Finlander residing near Tivoli, on the Bovey branch of the Duluth, Missabe and Northern road, shot and killed his mother has reached the sheriff's office in Duluth. It is reported that Mrs. Aho took her son to task for drinking too much.

Schoolteacher Commits Suicide.

Syracuse, Neb., Feb. 4.—After setting fire to his father's barn, John Rammel, a schoolteacher, thirty-four years of age, climbed into the hay mow and cut his throat. His body was almost entirely consumed.

The First Expose

"MICHAEL'S" first expose of new summer fabrics will be made Tuesday, February 5, 1907. It will reveal to you much of the daintiness that you will delight to possess during the coming summer. Styles have radically changed since last season and we are sure that you will delight in seeing what is to be worn. You will also find the choicest of styles for we had these come in early for those who wish to do their sewing early in the season when time is more plentiful than later. The prices will surely be an interesting feature for while cotton fabrics have advanced you will scarcely notice it in these numbers. We shall not ask the advance until compelled to. So with this explanation we trust that we may have your presence during the early part of the week.

H. F. Michael Company

CONFERS WITH CONTRACTORS.

William J. Oliver Prepares for Work on Panama Canal.

New York, Feb. 4.—William J. Oliver of Knoxville, Tenn., the lowest bidder for the construction work on the Panama canal, held a conference here with ten other contractors who will, it is understood, be associated with Mr. Oliver in the event that his bid is accepted. The purpose of the conference, it was said, was to discuss the formation of a corporation which would be prepared to undertake the work on the Isthmus.

Those present, in addition to Mr. Oliver, were: John B. McDonald and John Peirce of this city; George Peirce of Maine; P. T. Walsh of the Walsh Contracting company, Davenport, Ia.; P. J. Brennan of the Brennan Construction company of Washington, D. C.; Robert Russell of New York, who has been associated with Mr. Oliver in many enterprises; W. H. Sayre of the International Contracting company, New York; Charles H. Ackert, vice president and general manager of the Southern Railway company; R. A. Chester, vice president of the National Bank of Commerce, Washington, D. C., and R. A. C. Smith of this city.

Mr. Oliver declined to make public the outcome of the meeting, but said that something might be made public in a few days.

A representative of Mr. Oliver subsequently announced some plans that have been agreed upon in addition to those already made known.

Mr. McDonald, if the corporation to be formed is awarded the canal contract, will have general supervision of the construction work.

George Peirce and John Peirce, who have interests in the largest quarries in this work, will have charge of the mason work, and Mr. Walsh will have supervision over the work of excavation. Mr. Brennan will have portions of the construction work to do. Robert Russell will be, it was said, in charge of this work.

Vice President Ackert of the Southern railway will look after and have general charge of all transportation to the canal, not only of men employed but of the machinery used.

Mr. Smith and Mr. Chester will have charge of the financial end of the corporation.

FROTHINGHAM IS DEAD.

Noted Broker's Attempt at Suicide Is Successful.

New York, Feb. 4.—Howard P. Frothingham, who, while delirious from a nervous breakdown, jumped from the second story of his home in West Seventy-seventh street Saturday, died just before midnight. The death was not reported to the police for some hours, when the coroner instituted an investigation.

Nervous strain due to recent reverses in Wall street is believed to have caused the despondency which resulted in the deed. Mr. Frothingham was one of the best known men in the financial district.

He had passed his forty-fifth birthday and was a native of New York city. He was probably the biggest and best known loan broker in the country, lending more "call" money annually than any other man or firm. He handled money for nearly all the largest financial institutions and his acquaintance in that line was almost universal.

Recently his physician persuaded him to take a rest and Mr. Frothingham went to Atlantic City, where he remained a few days. Returning to his home here he was ordered to bed and nurses stationed in constant attendance. When one of the nurses Saturday opened a window in the sick-room, Mr. Frothingham sprang from his bed and, thrusting aside one of the nurses who had seized him, jumped from the window. He fell to the area, alighting on the back of his head, receiving a compound fracture at the base of the skull. He is survived by a widow and a daughter.

FAMOUS BEAUTY IS DEAD.

Romantic Career of the Marchioness of Hastings Ended.

London, Feb. 4.—Florence Cecilia Pazel, Marchioness of Hastings, is dead at Windsor after a romantic career. She was the greatest beauty in the mid-Victorian period. While she was engaged to Henry Chaplain (ex-president of the local government board) in 1864, she made a runaway marriage with the Marquis of Hastings, who was then at the zenith of his career on the turf. Three years later Mr. Chaplain won the derby and \$775,000 with an outsider, while the Marquis of Hastings lost heavily on the same race, beginning a series of losses which led him, the following year, to commit suicide.

The Marchioness in 1870 married Sir George Chetwynd. She was born in 1842 and was the third daughter of the second Marquis of Anglesey.

Chester Thompson Not Guilty.

Tacoma, Wash., Feb. 4.—Chester Thompson, on trial for the murder of Judge George Meade Emery in Seattle on July 7, 1906, was found "not guilty by reason of insanity" by the jury. The boy was remanded to await the court's orders. He is a member of a well known Indiana family, being a nephew of the late Maurice Thompson, the novelist, and a son of Will Thompson, the poet.

MAIN LEVEES HOLD INTACT.

Crest of High Water in the Mississippi Has Passed Memphis.

Memphis, Tenn., Feb. 4.—With every main levee in this district holding intact, the crest of the high water in the Mississippi river has passed Memphis. The gauge was 40.2 feet at 7 o'clock p. m., a fall of one-tenth in twelve hours.

The levee at Hollybush, north of Memphis, which caused such apprehension, withstood the enormous pressure of water and the farm lands in its rear are believed to be safe. The river probably will recede rapidly in the next few days.

Forecast—Fair tonight except snow north portion warmer Tuesday snow and warmer.

EDITORS WILL MEET

The Minnesota Editorial association will hold its annual session in St. Paul on February 14 and 15, and a most inviting program has been prepared. There should be a large attendance, if for no other reason than to show the old railroads that the editors have the cash to travel when they feel like it. If the editors gather at St. Paul, after paying cash for their transportation, the legislature will be pretty sure to give up a two cent rate—or the prairies will be strewn with more political carcasses than ever polluted the atmosphere in one season. Editor A. J. Halsted of Brainerd has been nominated for president by a number of the papers, and there is no need of a second candidate. He will do.—St. Cloud Journal-Press.

The annual meeting of the Minnesota State Editorial association will be held at St. Paul on the 13th and 14th insts. The editors will be granted a rate of one-and-a-third, certificate plan. There is a probability that a railroad representative will address one of the sessions. A. J. Halsted, of the Brainerd Tribune, is favorably mentioned for president—a very good selection it would be.—St. Cloud Times.

LOCAL NEWS NOTES.

Harry Mills, of Bemidji, was in the city yesterday.

Mayor R. K. Wise returned from the city this afternoon.

Herman Peterson, of Deerwood, was a Brainerd visitor today.

Card tables and folding chairs for rent at D. M. Clark & Co. 185tf

Edward Gay and Harry Dosh, of Carlton, were in the city yesterday.

J. C. Rathvon, of Deerwood, was transacting business in the city today.

C. R. Brackett, of Minneapolis, was in the city yesterday on business.

Mrs. Hasbrook, of Pillsbury, is visiting friends in the city for a few days.

A. T. Fisher went to Duluth today to investigate the causes of the coal shortage.

Senator Alderman returned to St. Paul today after spending Sunday with his family.

Mr. and Mrs. McQuillan, of Aitkin, were in the city today enroute for the twin cities.

Miss McLaughlin, of Bemidji, was in the city today on her way to Duluth to attend school.

J. L. Smith returned today from Walker, where he had been over Sunday on business.

Rev. C. Hougstad returned this morning from Motley where he conducted services yesterday.

Mrs. J. M. Hallett went to Duluth and Hibbing today to visit her daughter and other friends.

Miss Florence Bowen returned today from Jenkins. She reports the thermometer as standing at 47 there this morning.

A certain standard of strength, purity and wholesomeness has been set for Hunt's Perfect Baking Powder, and it is always up to the standard.

There will be revival meeting in the Swedish Baptist church every night this week. They will be conducted by Rev. E. Bourquist, assisted by the pastor.

James O'Conner, of East Brainerd, left today for Hot Springs, Ark., to be treated for rheumatism. His brother-in-law, M. J. Enright accompanied him as far as Chicago.

Mrs. S. E. Rollins, mother of H. A. Rollins, who left here Saturday for her home in Minneapolis, will leave tomorrow morning for Texas to spend the balance of the winter.

Eugene Wilson, advance agent of Roselle Knott, is in the city today. Miss Knott appears Monday evening, Feb. 11, in "Alice-Sit-by-the-Fire." This is the same dramatization as that in which Ethel Barmore made such a hit last season.

Harry Parsons, the well known boot black at John Cochran's barber shop, died about 11 o'clock Saturday night of typhoid pneumonia. He had been sick only a few days. Death occurred at the home of his aunt, Mrs. Amanda Whitmore, 508 Bluff avenue South, from which place the funeral will occur on Wednesday afternoon at 2 p. m.

No. 91 today consisted of two coaches, a freight caboose and a box car, the

latter officiating as baggage and mail car. The train was hauled by one of the big "2300" freight engines and arrived here about an hour and a half late. It brought a dray load of Big Falls and Morris mail sacks and as the mail had not been worked there may have been some Brainerd mail among it.

Some people call coughing barking I see no reason why they should do either one or the other and they never would if they would only get a bottle of Skaugs's never cough, a medicine which never fails to break up the worst cold going. No cure, no pay. Skaugs's Laurel street druggist guarantees it. 187tf

Trades and Labor Assembly

The next regular meeting of the Trades and Labor assembly will occur on Tuesday evening, Feb. 5, '07, at Theviot's hall. All delegates old and new are requested to be present as business of the greatest importance is to be transacted.

Per MARTIN FREEMAN, Secretary Pro Tem.

A dose a week prevents appendicitis. You are not safe without Dr. Adler's Treatment. Johnson's Pharmacy.

HUGO'S SHORT MEMORY.

Told Different Versions of a Story on Three Occasions.

The Revue Hebdomadaire publishes an anecdote on Victor Hugo which by many will be considered very characteristic. Right after Napoleon III's coup d'etat Victor Hugo and Schoelcher, a well known politician of that period, fled together from Paris. A short time afterward, when Hugo met Schoelcher at his table in Brussels, the poet said: "Yes, my dear friend, you can boast of having once scared me very much. I had no doubt but that we were done for." Turning to the other guests, he explained:

"We were on the way to the Northern railroad depot and were sitting silent and uneasy in the omnibus, our hats drawn deep over our foreheads. Presently a regiment of infantry passed by with flying colors and resounding music. At the sight Schoelcher forgot all caution and, leaning out of the window, shouted, 'Down with Caesar!' instantly I caught hold of him and closed his mouth with my hand. One word more and we should have been done for."

Two years later Schoelcher visited his friend Hugo in Guernsey. At dinner again the coup d'etat was discussed, and the poet called forth recollections of times past. "Do you still recollect, Schoelcher," he asked, "the day of our flight? We really came off very lucky. But didn't we act like madmen, shouting 'Down with Caesar!' when that regiment was passing by? Of course we were too indignant to be able to keep our temper."

Several years lapsed, and again Schoelcher was a guest in Hugo's house. Conversation turned to civic courage and the like. "Well, my dear Schoelcher," Hugo said to his friend, "I must tell you something I have had in my heart for years. In a critical moment of your life you showed a weakness which grieved me deeply. You will recollect that day when we, after the coup d'etat, left Paris and how I, while a regiment of infantry was passing by, at the sight of these killers of our liberty and in a rage, having no command over myself, shouted out, 'Down with Caesar!' I still have you before my eyes trembling with fear, catching hold of me by the lapel of my coat and forcing me down on the seat, so concerned you were for your precious life."

A tissue builder, reconstructor, builds up waste force, makes strong nerves and muscle. You will realize after taking Hollister's Rocky Mountain Tea what a wonderful benefit it will do you, 35 cents, tea or tablets. H. P. Dunn & Co.

Animals at Play.

Animals have a keen sense of "making believe" which is the essence of play. A child's first game is bopee—make believe. When a couple of dogs have a jolly tussle they make believe to engage in deadly combat. A striking instance of this occurred to a writer some years back. He gave a dead mouse to a kitten. It was the first time she had seen one, and she sniffed at it inquisitively before deciding to toss it about. A pair of slippers lay on the floor. She dropped the mouse into one of them and immediately proceeded to look for it most zealously in the other slipper till I took up the first, which contained her booty. Then she showed that it was no real lack of memory that had sent her on the bootless search.

La Grippe and Pneumonia

Foley's Honey and Tar cures la grippe coughs and prevents pneumonia. Refuse any but the genuine in the yellow package. H. P. Dunn & Co. mwdw

Ranchman Kills a Carpenter.

Sidney, Neb., Feb. 2.—In a quarrel over the settlement of an account, W. D. Stratton, a carpenter, attacked John Bowers, a wealthy ranchman, with a rifle. Bowers secured a shotgun and killed Stratton at the first shot.

Lasker in the Lead.

New York, Feb. 1.—By winning the third game of the match for the chess championship of the world against Frank J. Marshall, Dr. Emanuel Lasker now has three games to his adversary's none.

ANGER IS DANGEROUS

Death Liable to Follow a Sudden Outburst of Temper.

FRENZY MAY SPELL SUICIDE

A Chemical Poison Is Created in the System When One Indulges in a Fit of Rage—Famous Men Who Have Died in a Moment of Passion.

Death frequently follows a sudden fit of anger. Persons who are otherwise sensible and even philosophical indulge at times in this suicidal and profitless pastime. The Emperor Nero died at the age of sixty-six from fever resulting from a fit of anger. Paul III., who occupied the papal throne from 1534 to 1549 and who was considered one of the most intelligent and liberal as well as just of popes, died from a sudden fit of anger while upbraiding Cardinal Alessandro Farnese, who had proved false to his friends and benefactor.

The emperor of Valentinian while addressing a deputation of backsliding Germans allowed his angry emotions to get the upper hand of his common sense and fell dead ere he had finished speaking. The celebrated English surgeon John Hunter indulged in angry dispute with one of his colleagues at St. George's hospital and dropped dead at the feet of him who had been the cause of the resentful and bitter remarks. The Russian surgeon Boddawski, being angered at the awkwardness of an assistant during a surgical operation, gave free vent to a fit of anger and expired without a moment's warning.

The milk as well as the flesh of animals that have died while in a rage has been found upon analysis to contain elements of poison, and many an innocent babe has been made dangerously ill by nursing at the mother's breast immediately after that mother had indulged in a fit of frenzy or anger. Neither the chemist nor bacteriologist has yet been able to demonstrate the particular poison or germ that renders the milk toxic under the conditions, but that a poison and a very active and energetic one exists is unquestionable.

Death during a fit of anger may be produced by a toxic product developed by the undue excitement as much as to the play of the emotions upon the nerve centers of the heart. Little children should be taught in earliest infancy to control their angry passions. A parent smiling approvingly at what he is pleased to term the "spunkiness" of his offspring without making any effort to reprove or to correct the outburst of ill temper is guilty of wanton neglect and is storing up much unpleasantness for both himself and the child in future.

"Anger is a stone cast into a wasp's nest," reads the Malabar proverb, and how often the angry word stirs up strife and discord and contentions that keep up a continual unpleasant buzzing until, like wasps disturbed in their nests, they alight upon the disturber, bringing a sting that wounds his own personality.

"Be slow to wrath" might be a cherished guide at any and every period of life. But as years run their course, particularly if accompanied by a feeble condition of body, a conscious tendency to fits of anger should induce habits of strenuous self control. This control, however, is not acquired in a day. The imprisoned fire of anger but waits for the kindling breath of provocation, and each time it is confronted by the latter a calm exterior, even though the spirit be at white heat, will win a victory without either party to the strife being a loser.

A bright three-year-old child who was given to passionate outbursts of resentful anger each time her wishes were thwarted was one morning suddenly lifted to the mirror with the mother's admonition, "Look at yourself!" Immediately the child's resentful face changed, and, nestling to her mother, who wisely refrained from saying another word regarding the ebullition of temper, she, with an apologetic hug, softly sobbed away the resentment.

Some weeks afterward, during which time there was a marked change for the better in the temperament of the child, the mother had occasion to reprove the little one for an act of disobedience, using perhaps unnecessary warmth of temper at the time. Without hesitation the little one seized her by the hand and took her to the mirror. "Look at 'orself!" she exclaimed, her childish voice as severe as her strength permitted, at the same time struggling desperately to keep the angry lines from her own tiny face by puckering her lips into a form from which issued a succession of soft, nonchalant oos.

The lesson had been taught, learned and retaught, and who shall say how far reaching its influence? If one can only be brought to understand the toxic effect of anger upon the whole sensorial system of the individual, resulting, as it frequently does, in sickness and even death, each would be more at peace with his neighbor, with the community and with the world at large.—Marion Almsworth White in Chicago Tribune.

Not Her Sort.

Gabriel was blowing the last trump. "Hurry up!" shouted Mr. De Style. "I won't!" retorted Mrs. De Style. "Think I'm going in with the crush?"—Washington Herald.

Behavior is a mirror in which every one displays his image.—Goethe.

PIGS AS FASTERS.

The Wonderful Ability of Swine to Live Without Food.

Very few people have any idea of how long swine can live without food, although much has been said about the quantity they can consume. But, believe me, piggle is a record breaker when it comes to living without anything at all to eat.

The incident that I am about to relate occurred in Michigan and very well illustrates what I have above stated.

A farmer who had driven a large number of hogs into a settlement to sell after reaching his destination missed a fine black sow. Search was made in every conceivable place without discovering anything of the missing porker.

Weeks passed by, and the farmer had given up all hope of ever recovering his lost or stolen property when to his surprise it was found in the cellar of an old abandoned house.

As the house was situated at the edge of the road over which he had driven the hogs, it is supposed that she fell through the rotten flooring upon which she had stepped at some moment when the farmer's eyes had wandered in another direction.

When brought up she was a pitiable sight. The skin hung in folds upon her poor, unpadding bones.

Food was given her in small quantities at first, and it was not long before she entirely recovered from her long fast.

On referring to the books recording the sale of the rest of the stock it was learned that three months lacking five days had elapsed, showing that she had sustained life without nourishment for as long a period as the accredited hibernating animals.—New York Herald.

A CURIOSITY OF LUNACY.

Periodicity of Mania by Which the Patient Lives Three Lives.

There is a special form of mental disease, first described in France, whose definite character is given to it by its periodicity, and hence it is called folie-circulaire. In it there are three sections of the mental circle that the patient moves in—viz, elevation, depression and sanity—and in this round he spends his life, passing out of one into the other, for it is, when fully established, a very incurable disease.

The patient takes an attack of mania, during which he is joyous, restless, troublesome, extravagant and often vicious. He eats voraciously, sleeps little and never seems to tire. His temperature is a degree or so above the normal, his eye is bright and glistening, he is enamored of the other sex, he shows diminished self control and no common sense.

This lasts for a few weeks, or a few months more commonly, and then he passes sometimes gradually and sometimes rather suddenly into a condition of depression, during which he is sluggish, dull, looking differently, dressing differently, eating differently, fearful, unrelent and sedentary in habits.

This state will last a few weeks or months, and the patient will brighten up into what seems recovery and is to all intents and purposes in his normal state. This again lasts for a few weeks or months, and he gradually gets morbidly elevated. You find he is passing through every minute mental phase and habit he did at first. Depression follows as before, and then sanity, and this round of three states of feeling, of intellect, of volition and of nutrition, goes on, circle after circle, till the patient dies. He lives three lives.—Hospital.

Looking Down His Own Throat.

One of the quaintest reasons put forward for the origin of squinting was that given by a parent to Harold Grimsdale, who read a paper before the Childhood society on the detection of imperfect condition of eyesight. A boy had swallowed a large sugar almond, and it was owing to his attempts to locate its position in his throat that the squint had developed. If taken in time squint was curable, but too often parents neglected the symptoms and only scolded their children for a bad habit. Short sight was entirely a disease of civilization, being absent in savage races.—London Mail.

Candy Capacity of a Girl.

"Yes, little girl," said the kind old man, "I have an immense candy store, and I am going to give you all the candy you can eat." "Oh, goody!" cried the little girl, dancing about with happiness. "Now," continued the kind old man, "how much candy can you eat?" "How much candy have you got?"—Judge.

A Literary Crime.

Lord Crawford of England, president of the Royal Astronomical society, has a fine general library, which would have been much larger and grander but for the fact that one of his ancestors, the premier earl of Scotland, disposed of thousands of valuable volumes to cheese men, who used their leaves as wrapping paper.

A Stumbling Block.

Browne—So you think the Bible is contradictory in spots? Henpeck—Er—yes, I do. Browne—You surprise me. Where, for instance? Henpeck—Well, I can't reconcile the statement that Solomon was the wisest man with the further fact that he had so many wives.—Philadelphia Press.

He is a wise man that can avoid evil; he is a patient man that can endure it; but he is a valiant man that can conquer it.—Quarles.

It's Natural To Follow The Crowd

For the great majority don't go wrong. You might as well try to turn backward the falling waters of Niagara as to stop the people coming after our BARGAINS.

The people are reading advertisements, thinking, comparing. We know it by having to get new lots of goods so frequently.

Here are samples of BARGAINS for you, beginning Saturday, Feb. 2 and continuing two weeks.

Sugar, 20 pounds granulated sugar...	\$1.00	Prints, Spring prints.....	5c
Beans, 9 lbs. Navy beans...	25c	Ginghams, apron check ginghams...	5c
Feed, 1 sack cracked corn (sack extra)....	75c	Coats, ladies' and children's coats. Any coat in our store.....	1/2 off
Corn, One can sweet Corn...	5c	Shoes, felt and lined shoes and slippers	1-3 off
Overcoats, Men's and boys' overcoats any overcoat in our store.....	1/2 off		

It's too early to urge you to buy thin, gauzy white goods for 30 degrees below zero weather—but when old Sol returns with his warm rays, we will have abundance of the newest and latest summer goods for you—but at present we want you to have heavy winter stuff.

CONFIRMED PROOF

Residents of Brainerd Cannot Doubt What has Been Twice Proven

In gratitude for complete relief from aches and pains of bad backs—from distressing kidney ills—thousands have publicly recommended Doan's Kidney Pills. Residents of Brainerd, who so testified years ago, now say their cures were permanent. This testimony doubly proves the worth of Doan's Kidney Pills to Brainerd kidney sufferers.

James Parker, carpenter, of 124 N. E. 2nd ave., Brainerd, Minn., says: "Every winter since I had the gripe I was unable to shake off its effects. My back commenced to pain me across the kidneys with a numb sort of aching which I felt always over the lame spot, even when lying in bed. I was always troubled with headache which I think arose from my kidneys. I got a box of Doan's Kidney Pills and used them. Since then I have been in much better health, have no more attacks of headache, no more backache and I regard it as quite wonderful that any remedy could bring about such a change."

On October 18, 1904, six years after Mr. Parker made the above statement, the testimony was confirmed by Mrs. Parker. She said: "Mr. Parker's statement was true in every particular, and we both feel that Doan's Kidney Pills can be relied upon to cure every form of kidney trouble. We are always glad to advise sufferers to go to H. P. Dunn & Co.'s drug store for Doan's Kidney Pills and give them a trial."

For sale by all druggists. Price 50 cents. Foster Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name—Doan's—and take no other.

WHERE LIES THE BLAME

Have Incorrect Reports of the
Fuel Conditions In Brainerd
Been Sent Out

AGENT MOSIER'S STATEMENT

Correspondence Concerning the
Matter is Published
Below

Have local conditions as the fuel supply in Brainerd been misrepresented? That is the question many angry men have asked today and many more will probably ask it when the following correspondence is read. A railroad official told a representative of THE DISPATCH Saturday that the only reason that the dealers did not have coal was because they had not ordered it and that the wholesale coal companies were mistaken when they stated that they could not get all the cars they wanted.

The following letters are self explanatory:
Northern Coal & Dock Co.
St. Paul, Minn.

Feb. 1, 1907.

Fisher-Budd Fuel Co.,
Brainerd, Minn.

Gentlemen:—Your letter of January 31st at hand and in reply regret to say that there is at the present time absolutely no prospect of our shipping you any coal as we cannot get the cars.

Yours truly,
C. W. ADAMS,
Vice Pres. and Treas.

Pittsburgh Coal Co. of Minn.
Minneapolis, Minn.

January 29, 1907.

Fisher-Budd Fuel Co.
Brainerd, Minn.

Gentlemen:—Your favor of the 23rd inst. received. We presume if we tell you that we have again instructed our dock to make a special effort to get your order out, you will say to yourselves "the same old chestnut." Undoubtedly it is, but under the existing circumstances it is positively the best that we can do. For some time past, the N. P. have required us to load every car they furnished us with company fuel, but the very first free car shall be loaded with your order.

Yours truly,
D. B. SMITH, JR.,
N. W. S. A.

State of Minnesota
Railroad and Warehouse Com.
Saint Paul, Minn.

Feb. 2, 1907.

Fisher-Budd Fuel Co.,
Brainerd, Minn.

Gentlemen:—We took up the matter of your complaint, under date of the 30th ult., with reference to coal shortage at Brainerd, with the Northern Pacific Railroad company.

They advise us that after investigation of the situation at Brainerd through their local agent at that point, that they can find no cause for complaint that anybody is suffering for want of fuel, or are likely to be in the immediate future.

Regarding the situation at the head of the lakes, they state that they can take care of any coal shipments there for Brainerd, and that the proper course for you to pursue is to get after your coal companies from whom you have ordered the fuel with a view of having them load the cars for you.

As soon as the cars are reported loaded, if you will advise us the number, and initials, we will see that they are hurried forward to their destination.

Yours truly,
A. C. CLAUSEN,
Secretary.

Mr. Mosier, the local agent, was seen by a DISPATCH representative in regard to the above, and he denies that he reported that there was not a shortage of fuel. He says that he reported that he did not know of anyone here freezing to death, and this was in response to a query asking whether it was true that 10,000 people were freezing here, as had been reported. He says further that he told the exact situation, that several hundred families were out of coal, and that wood was very difficult to obtain, and that complaint was being made by shippers of wood that cars could not be obtained at points of shipment, and that the company had promised and were doing all they could to relieve the situation.

That Mr. Mosier is hustling as hard as he can is evidenced by the fact that he has succeeded in getting two car loads of coal, consigned to points in North Dakota that are snow bound, rebilled to Fisher & Budd Fuel Co. in this city, which is being unloaded and delivered this afternoon.

Mr. Mosier also reports that General Superintendent Klene has gone to Duluth and is having six cars loaded there today for this city, which will be received probably by tomorrow, and will help some to relieve the situation.

The fuel situation certainly is very bad in this city. Between three and four hundred families are entirely out of fuel and as many more will be in a week or two, and until today no coal has been received for a week and only two cars have been received in three weeks. It is estimated that it will take fifteen cars to supply the immediate crying demand. The two cars received today through the efforts of Agent Mosier is being dealt out in 1,000 pound lots by Fisher & Budd to make it serve as many homes as possible.

It's a good old world after all;
If you have no friends or money,
In the river you can fall;
Marriages are quite common and,
More people there would be,
Provided you take Rocky Mountain
Tea.

H. P. Dunn & Co.

The West End.
Why is it that in most of the cities of the world fashion makes its home in the northwestern quarter? Why is it that the "west end" is so often the aristocratic section of the city and "east side" and "south side" so often the residence of the poorer classes? It is a fact, and there is a ruling cause for it. Is it this—that the prevailing winds of the earth are northwesterly? They are in general northwesterly, and their tendency is to blow the dust, smoke and odors of a city to its eastern or southern side. This makes the opposite quarter the more desirable for residence.

Rough on the Kirk Rats.
It was a young Scot's first sermon after he received his license, and unfortunately he became very nervous, lost control of his voice and spoke very loudly indeed. Nearly all his friends went to hear him preach, but one who was unable to attend inquired at the first opportunity as to how he got on. "I'll tell ye one thing," was the candid reply, "it's many a day since the rats in Boulton kirk got such a fright!"—Dundee Advertiser.

The Ruler.
"Now that you've gone to house-keeping, which rules, you or your wife?"
"Neither of us. We have a provisional government."
"What is that?"
"The cook's."—Baltimore American.

Special Announcement Regarding the National Pure Food and Drug Law

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. H. P. Dunn & Co. mwfdw

HAS CLEAN BILL OF HEALTH

Brainerd's Vital Statistics for
1906 Show Good Record as
to Contagious Diseases

ONLY ONE DEATH THEREFROM

Typhoid Fever Shows Most
Deaths but Over Half were
Imported Cases

The records of Dr. J. A. Thabes city health officer for the year 1906 show some facts of interest to people in general and show a good healthy condition. There was but one death from a contagious or infectious disease during the year, that being from scarlet fever. The records show the following:

Deaths, 133; males 81, females 52 of these deaths, 26 were persons residing out of the city, who were brought to the hospitals here suffering from diseases or injuries.

The month of August showed the greatest number of deaths, 17 occurring in that month with 16 in December. Typhoid fever caused 16 deaths, but of these 10 were parties out of the city, in every case, probably, the person being brought here sick with the disease. Cholera infantum claimed 14 victims, all being children residing in the city. Pneumonia carried away 13 and the various forms of tuberculosis nine.

In the matter of births there were 127 recorded, of which 71 were boys and 56 were girls.

This May Interest You

No one is immune from kidney trouble, so just remember that Foley's Kidney Cure will stop the irregularities and cure any case of kidney and bladder trouble that is not beyond the reach of medicine. H. P. Dunn & Co. mwfdw

SCARLET FEVER IN CHICAGO.

Decrease in the Number of Cases Reported.

Chicago, Feb. 4.—Fewer cases of scarlet fever and of other contagious diseases were reported to the health department Sunday than on any day since the epidemic began. No decrease, however, was shown in the number of deaths. There were 83 cases of fever, 26 of diphtheria and 19 of miscellaneous diseases, as compared with 407 cases of fever, 67 of diphtheria and 59 miscellaneous a week ago. There were seven deaths reported.

It's the highest standard of quality, a natural tonic, cleanses your system, reddens the cheeks, brightens the eyes, gives flavor to all you eat. Hollister's Rocky Mountain Tea will do this for you. 35 cents, tea or tablets. H. P. Dunn & Co.

PASSENGER TRAIN WRECKED.

Heroic Express Messenger the Only Person Killed.

Woodland, Cal., Feb. 4.—Southbound Southern Pacific train No. 15 was wrecked at 6 o'clock a. m., one and one-half miles north of Dunnigan, probably by a broken rail. Express Messenger Charles F. Farles was killed and his assistant, A. Smith, was slightly injured. Several passengers were badly shaken up.

The express messenger who was killed was the hero of two holdups and three wrecks. He distinguished himself recently in a holdup in Oregon, when the robbers dynamited the express car, by sticking to his post of duty and holding the robbers off with a shotgun.

Chronic Constipation Cured

One who suffers from chronic constipation is in danger of many serious ailments. Orino Laxative Fruit Syrup cures chronic constipation as it aids digestion and stimulates the liver and bowels, restoring the natural action of these organs. Commence taking it today and you will feel better at once. Orino Laxative Fruit Syrup does not nauseate or gripe and is very pleasant to take. Refuse substitutes. H. P. Dunn & Co. mwfdw

POINTED PARAGRAPHS.

When fish bite freely they're little ones.

The impudence of some people is the only great thing about them.

To burn a letter may show a lack of sentiment, but it is in many cases a mark of good judgment.

You often hear a mother say to her child, "How often must I tell you?" How often must you be told?

There is one thing you should put off till tomorrow that you might do today, and that is sitting down and counting up your troubles.

Some men not only feel that the world owes them a living, but are sore because there are no collection agencies to collect it for them.

If you brag that you are contented people say you might as well be a cow, and if you are discontented people say you have a grouse, and there you are.—Acheson Globe.

The editor of the Memphis, Tenn., "Times" writes: "In my opinion Foley's Honey and Tar is the best remedy for coughs, colds and lung trouble, and to my own personal knowledge Foley's Honey and Tar has accomplished many permanent cures that have been little short of marvellous." Refuse any but the genuine in the yellow package. H. P. Dunn & Co. mwfdw

Farm, Home & Garden.

Short, pointed statements of methods and results in Crow Wing county are requested for this column. Address all communications to Farm Editor, Box 1516, Brainerd, Minn.

NOT SO BIG AS IT SEEMS

The Standard Oil company is not so big as it seems according to the American farmer. It says in regard to the matter:

"We hear much about the tremendous wealth of the Standard Oil company and its dazzling annual income. But when placed beside the sum produced last year by American farmers, the Rockefeller business looks like a peanut stand. That concern took in a measly \$10,000,000 or so, but the great American farmer has to his credit in round numbers \$6,800,000,000. Why John D's income wouldn't make pin money for the farmers' wives."

An exchange says:

"All the foreign olive oil so far examined by the Agricultural Department has been found pure. The stories have come from some one who wanted to boost the protected California article. Truth is that there is more adulteration of food products in this country than any other. It is our own frauds we need to watch."

The Minneapolis Tribune recently published a pointed article on the girl who calls on her gentlemen friends at their places of business. The paper was merciless in its showing up of the contempt and ridicule with which men speak of her. There is no doubt that any self-respecting girl who might hear the remarks made after she left the office would never repeat the visit. The girl who calls a young man to the telephone for trivial reasons during business hours is almost equally a nuisance.

My! but this is tough weather to begin to think about summer flower and vegetable garden. But it is necessary to plan ahead in order to have a good and early garden. In fact the planning should have begun last fall and soil should have been put in the cellar in which to plant tomato, cabbage, celery and other seeds which need a long season to mature. These seeds should be planted this month in boxes and kept warm and moist. The earlier planted the better the show for early vegetables. Seeds should be selected now, especially if they are to be ordered by mail. Tomatoes and other plants should be transplanted a time or two before setting in the open ground. A good plan where possible, to set the plants in berry boxes from which the bottoms have been removed.

This winter should be a warning to householders to lay in a winter's supply of coal next summer. There are few families in Brainerd who cannot pay for their winter's coal at that time. In fact it is the easiest time to pay for it for often the garden cuts the grocery bill very materially. In any event it is just as easy to do without the luxuries in summer as it is to scrimp in winter to pay for the coal and wood when it must be had. "Going without?" Haven't we heard that phrase before? When was it? Must have been a long time ago. Now a days we all think we must have the best there is and all we want regardless of the future. Down in Brooklyn recently the butchers raised the price of meat two cents. The women got together and decided that they would not buy meat, and their families would go without. There was nothing to do and no proclamations issued. They just simply went without. For one day not a woman went near the meat markets. It only took one day for the butchers to take a tumble to themselves. They reduced the price to the old figures. Do without. It seems impossible until we look back to childhood days. Many things we think we cannot get along without were considered the most extravagant luxuries. Yet we lived healthy and happy lives. Do without. That is the key to beating the trusts.

AMUSEMENTS

Roselle Knott

Miss Roselle Knott in J. M. Barrie's three-act comedy, "Alice-Sit-by-the-Fire," will be the next attraction at the opera house on Monday, Feb. 11th. "Alice-Sit-by-the-Fire" is considered to be the best of the Barrie comedies, and is said to suit Miss Knott better than anything than she has heretofore attempted. The play was first produced in New York last season by Ethel Barrymore and ran for one year at the Criterion theater, winning the praise of press and public. Many of the original cast has been retained to support Miss Knott and the entire original production has been purchased and will be seen here in its entirety.

BEWARE OF "DIGESTIVES"

The Only Way to Cure Stomach Disorders is by Strengthening the Digestive Organs.

The ordinary pepsin tablets has ruined more stomachs than all other causes combined. While it gives temporary relief, it leaves the digestive system weaker than ever, and the tablets must be continued with increased frequency.

The only way to permanently cure stomach troubles is by strengthening the digestive organs with a Mi-o-na stomach tablet taken before meals. In this way the remedy prepares the stomach for the food and excites the secretion of gastric juices so that, when the food is eaten, the stomach is prepared to digest it.

If Mi-o-na was a mere digestive, it would be taken after eating, so as to mix with the food, but then permanent relief would not be gained.

Mi-o-na stomach tablets are sold only in a neat metal box, convenient for the purse or vest pocket, and costs but 50c. H. P. Dunn & Co. have seen many cures made by Mi-o-na stomach tablets that they give a guarantee with every box that the money will be refunded if the remedy fails to give satisfaction. You run no risk in using Mi-o-na, for you are sure to be cured at trifling expense, or else your money will be returned.

WOOD FOR SALE

I have 300 cords of ash and elm wood for sale. It is dry and sound. John Tift. Tel 2723 2071f

Foley's Honey and Tar cures the most obstinate coughs and expels the cold from the system as is mildly laxative. It is guaranteed. The genuine is in the yellow package. H. P. Dunn & Co. mwfdw

Costly Fire at Princeton, Minn.

Princeton, Minn., Feb. 4.—Princeton suffered the second severe fire within less than forty-eight hours. The blaze broke out about 6 p. m. in the rear of Patterson's grocery store in the Townsend block, and before it could be got under control the entire block was in ruins, together with most of the stock of its tenants. The total loss is \$60,000 or more, and the insurance is about \$28,000. The cause of the fire is a mystery.

INTENSE COLD

Thermometer Reached Lowest Point this Winter on Saturday Night and On Monday Night

The weather man tried to see what he could do Saturday night and succeeded so well that he thought he would try it again last night. He made the record for the winter. It is reported that it struck the minus forty mark Saturday night and it also struck 45 degrees below last night, according to reports. The thermometer on the north side of the depot showed 41 at seven o'clock this morning. Telegraphic reports from the north state that at the government dam at Pive River the government instruments registered 55 degrees below zero this morning. Bemidji reports 50 degrees below last night.

All kinds of job work neatly executed at this office.

Mortgage Foreclosure Sale.

Whereas, default has been made in the conditions of a Mortgage, executed and delivered by Carrie P. Hill mortgagor, to The Dixon Land Company mortgagee, dated June 14th, 1905, and recorded in the Registry of Deeds of Crow Wing County, Minnesota, on July 7th, 1905, at 8 o'clock A. M., in book 2 of Mortgages, on page 326 on which there is claimed to be past due, at the date of this notice \$100 with interest at 6 per cent per annum since June 14th, 1905 and there is therefore now due \$300 with interest at 6 per cent per annum, since June 14th, 1905 and no action of proceeding has been instituted to recover the debt secured by said mortgage or any part thereof.

Now, Therefore, Notice is Hereby Given, that under a power of sale contained in said mortgage, and the statute in such case provided, said mortgage will be foreclosed by sale of the mortgaged premises by the sheriff of said Crow Wing county, at public auction, to the highest bidder for cash, at the front door of the county court house, in the city of Brainerd, Crow Wing county, Minnesota, on the 5th day of March, 1907, at ten o'clock in the forenoon, to satisfy said mortgage, and costs and expenses of sale, including \$25 attorney's fees, as stipulated in said mortgage.

The premises described in said mortgage, and so to be sold, are situated in Crow Wing county, Minnesota, and described as follows, to-wit: The southwest quarter of the northwest quarter and a parcel of land described as follows, viz: Beginning at the southeast corner of lot four (4), from thence running north to the shore of Serpent lake, thence along the shore of said lake in a southwesterly direction far enough so that a line projected south to the south line of lot four (4) and from thence east on said south line of said lot four (4) to the place of beginning will contain three (3) acres all in section thirteen (13) township forty-six (46) range twenty-nine (29) and containing forty-three (43) acres more or less.

Do You Think For Yourself?

Or, Do You Open Your Mouth Like a Young Bird and Gulp Down Whatever Food or Medicine May be Offered You?

If you are an intelligent, thinking woman, in need of relief from weakness, nervousness, pain and suffering, then it means much to you that there is one tried and true, honest medicine of KNOWN COMPOSITION, sold by druggists for the cure of woman's ills.

The makers of Dr. Pierce's Favorite Prescription, for the cure of weak, nervous, run-down, over-worked, debilitated, pain-racked women, knowing this medicine to be made up of ingredients, every one of which has the strongest possible indorsement of the leading and standard authorities of the several schools of medical practice, are not afraid to print, as they do, the list of ingredients, of which it is composed, in plain English, on every bottle-wrapper.

The formula of Dr. Pierce's Favorite Prescription will bear the most critical examination of medical experts, for it contains no alcohol, so injurious to delicate women even in small quantities when long continued. Neither does it contain any narcotics, or other harmful or habit-forming drugs, and no agent enters into it that is not highly recommended by the most advanced and leading medical teachers and authorities of their several schools of practice. These authorities recommend the ingredients of Dr. Pierce's Favorite Prescription for the cure of exactly the same ailments for which this world-famous medicine is advised by its manufacturers.

No other medicine for woman's ills has any such professional endorsement as Dr. Pierce's Favorite Prescription has received, in the unqualified recommendation of each of the several ingredients by some of the leading medical men of all the schools of practice. Is such an endorsement not worthy of your consideration? It certainly is entitled to far more weight than any number of non-professional, or lay testimonials.

A booklet of ingredients, with numerous authoritative professional endorsements by the leading medical authorities of this country, will be mailed free to any one sending name and address with request for same. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects in any condition of the female system.

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For over-worked, "worn-out," run-down, debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nerve "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability,

nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the female system. It induces refreshing sleep and relieves mental anxiety and despondency.

If a woman has bearing down, or dragging pains, low down in the abdomen, or pelvic, backache, frequent headaches, dizzy or fainting spells, is nervous and easily startled, has growing feeling in stomach, sees imaginary floating specks, or spots before her eyes, has melancholia, or "blues," or a weakening disagreeable drain from pelvic organs, she can make no mistake by resorting to the use of Dr. Pierce's Favorite Prescription. It will invigorate and tone up the whole system and especially the pelvic organs.

No woman suffering from any of the above symptoms can afford to accept any secret nostrum or medicine of unknown composition, as a substitute for a medicine like Dr. Pierce's Favorite Prescription, which is of known composition and has a record of over forty years and sells more largely to-day than ever before. Its makers withhold no secrets from their patients, believing open publicity to be the very best guaranty of merit.

Dr. Pierce invites all suffering women to consult him by letter free of charge. All letters of consultation are held as sacredly confidential and an answer is returned in plain sealed envelope. Address: Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

Dr. Pierce's great thousand-page illustrated Common Sense Medical Advice will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.

Dr. Pierce's Pleasant Pills invigorate the stomach, liver and bowels. They are the original Little Liver Pills having been put out for sale by Dr. Pierce over 40 years ago. Much imitated, but never equalled. One to three a dose. Tiny sugar-coated granules; easy to take as candy.

Dr. Pierce's Golden Medical Discovery is a most potent alterative, or blood-purifier, and tonic, or invigorator, and acts especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder, curing a large per cent. of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrhal dyspepsia), bowels (as mucous diarrhea), bladder, uterus or other pelvic organs. Even in the chronic or ulcerative stages of these affections, it is often successful in affecting cures.

CHURCH DIFFICULTIES

FRENCH MINISTER OF PUBLIC WORSHIP IS WORKING FOR THEIR SOLUTION.

FAR BETTER THAN EXPECTED

LATEST ACTION OF THE FRENCH OFFICIAL SURPRISES EVEN THE OPTIMISTS.

Paris, Feb. 4.—Minister of Public Instruction and Worship Briand, after lengthy consultations with Premier Clemenceau and Minister of Justice Guyot-Dessaigne, has taken a more extended stride toward the solution of the church difficulties than had been expected in the most optimistic quarters. M. Briand construes the recent enactment in the most liberal spirit, and a circular marked "urgent" and forwarded to the prefects of all departments for communication to the mayors, expresses this by recognizing the entire freedom of the mayors with the authorization of the mutual councils to grant leases of churches, rent free, to common law associations or clergymen, the only restriction being that the duration of a contract may not exceed eighteen years without the approval of the prefect. The lessee is merely held responsible for all repairs, while the essential condition is that the edifice shall remain attached to the sect by which it was used before the separation law became effective until it is legally disaffected.

Association to Act as Lessee.

M. Briand deals with the question of assuring pastoral succession, which he considers can best be attained by the formation of a common law association which shall act as lessee, but he points out also that in the event of a clergyman leaving the church himself any lessee has the right under the common law to cede the lease to a third party with the consent of the lessor and provided the contract does not stipulate to the contrary.

Relative to the terms of lease, M. Briand states that any legal clause may be inserted by mutual consent of the parties to the lease, while the ecclesiastical situation of the signatory clergyman may be set forth with a description of the powers he holds from his hierarchical superiors. Should a clergyman, before signing, desire to consult his bishop, it is only necessary for him to request a delay for that purpose; but the bishop cannot be a party to the contract and his countersignature is superfluous, as the signatory is personally responsible for the carrying out of the terms of the instrument.

A clause may be included in the lease by which it is annulled should the signatory leave the sect to which he belonged when he signed, but even when not written such a clause would be considered as existing.

The circular, though addressed to prefects and mayors, appears to be equally intended to offer advice to the clergy.

SEVERAL PERSONS INJURED.

Fire in New York Causes a Disastrous Panic.

New York, Feb. 4.—A rag shop on the first floor of a two-story and basement house on Cherry street was burned out early in the day and in the fire half a dozen persons were burned, some perhaps fatally, while others were injured by jumping from windows. All were asleep in the house when the fire was discovered by a patrolman.

The rousing of the occupants of the house by the police and the arrival of the firemen threw those living about the rag shop into a panic and in the scramble for the exits that followed many bones were broken and several persons were rendered helpless amid the flames. Before they could be reached by the firemen some had been probably fatally burned and others jumped for the upper windows.

IN TRYING TO SAVE HIS CHUM.

A Fourteen-Year-Old Baltimore Boy Loses His Life.

Baltimore, Md., Feb. 4.—The story of a double drowning in a deep pond at Violetville, a suburb of this city, revealed a youthful hero in the person of Carl Noweck, fourteen years old, who gave up his life in an effort to save that of his chum, Albert Schmidt, a year older than himself, who had broken through thin ice while skating. Noweck made his way to the place where Schmidt was struggling in the water, but in his effort to drag his friend to safety the ice under him gave way and both boys were drowned while a number of men and boys on shore looked on, apparently too frightened to act until too late to save the lives of the two boys in the water. The bodies were recovered.

Boy Killed by an Elevator.

Minneapolis, Feb. 4.—Valdemar Mortenson, the sixteen-year-old son of Mrs. Johanna Mortenson, 3206 Sixteenth avenue south, was killed instantly in an elevator in the Journal building. Mortenson either became frightened and tried to jump out or fell and was caught between the elevator platform and the floor. Almost every bone in his body was crushed.

TIDES OF THE OCEAN.

Regularity of the Flow and Ebb of the Restless Waters.

Of all the operations of nature in the whole world there are none more regular in their courses than the tides of the ocean. So perfect is their action and so constant are they in their ebb and flow that the big maritime governments are able to figure out the height of each and every tide for every day and night more than a year in advance for any part of the earth's surface.

In most places the tides run about four to the twenty-four hours, two being flood, when the water sweeps in from the sea and makes what is known as high water, and two being ebb, when it sweeps back to the ocean, leaving low water.

Each of these tides lasts about six hours—that is, for five hours or more the waters are on the move, rushing in or out, and they cease for a time, standing quite still in some places. Sometimes a tide will run flood on the surface while it is running ebb below near the bottom. Places where this happens are always likely to make danger spots for the mariner.

In the majority of places the tides rise and fall only a few feet, but on shores where the banks are very steep, falling off abruptly into deep water, it often happens that the tide when it rises comes in so fast that it pours through all narrow openings in cascade-like torrents, making such things as the famous "bores" which may be seen in places like the bay of Fundy.

In other places, again, there will be more or less than four tides in the twenty-four hours. Furthermore, there are localities where hardly any tidal action at all can be observed. All these peculiarities have been studied and are taken into account nowadays by the observers who make up the tidal tables.

MAN AND HIS HAT.

They Are Firmly Bound Together by the Red Tape of Society.

There are things, it is a comfort to know, which even a man cannot do, and a man is supposed to be able to do almost anything. Now, a novelist may put his heroine's hat on her head at any angle he chooses—it is one of the few privileges of womanhood—and leave her not a bit less charming or dignified, but I defy him to put his hero's hat at a rosy angle over his ear at a crucial point in his career and leave him still heroic! The Achilles heel of a man is his hat! He must guard that as he does his reputation, for it is at once his strength and his weakness.

It would hurt an archbishop—and an archbishop necessarily stands for all that is good and great—less in the eyes of the public to commit a crime than to wear his hat on the back of his sacred head—real back—and so exhibit himself to his distressed diocese. He may have all the known virtues and many that are not known, but even an archbishop cannot with impunity defy convention. Still, if he is so inclined, why should not a good and great man wear his hat over his nose without creating unfavorable comment? The fact is he cannot. He is ruled by convention, and convention is the red tape of society.

The cast iron laws of fashion, which is only another name for convention, are such that if the greatest man in England were to walk with all his accustomed dignity from the Marble arch to the bank with a trailing peacock's feather attached to the band of his immaculate silk hat he would be followed by a mob in two seconds, and by the time he reached Vere street the outraged majesty of the law would take him into custody as a suspicious character.—Mrs. John Lane in Putnam's Monthly.

Happens Once Every 2,500,000 Years.

A remarkable freak in moon phases was noted in the month of February, 1866, a month which has gone into astronomical annals as "the month without a full moon." In that year January and March each had two full moons, but February none. A writer in a leading astronomical journal uses the following language in describing it: "Do you realize what a rare thing in nature it was? It has not happened before since the beginning of the Christian era or probably since the creation of the world! It will not occur again, according to the computations of the astronomer royal of England, for—how long do you think? Not until after 2,500,000 years from 1866!"

Domestic Weather Prophets.

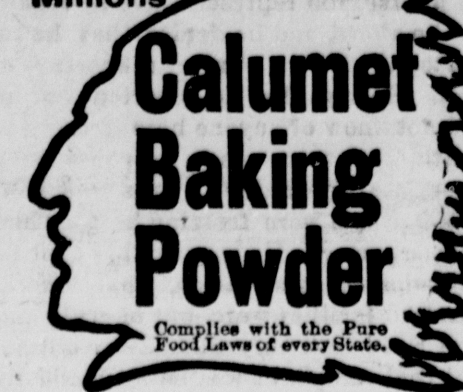

Probably everybody knows that there are hygroscopic plants which indicate more or less clearly the quantity of moisture in the atmosphere. A strip of seaweed hung in an exposed position frequently does duty as a popular and easily comprehended weather glass, although it may be doubted whether its predictions are of much value. More reliance can be placed in the behavior of a pine twig, which may very readily be pressed into service as a domestic weather prophet.—Cologne Gazette.

His Pronunciation.

She—That Mr. Planz, the architect, has a funny way of pronouncing things, hasn't he? He—I haven't noticed it. She—Why, yes. Didn't you hear him allude to a sore throat? He—A sore throat! She—Yes. I heard him mention a gargle several times. We always call it gargle, you know.—Cleveland Plain Dealer.

Don't wait for Dame Fortune to knock at your door. She may be kidnapped by some one who is willing to meet her halfway.—Chicago News.

Used by Millions

A DAM BUILT ON END.

How a Clever Engineer Conquered a Mechanical Difficulty.

Almost every boy has built dozens of dams in various ways, constructing them across the bed of the channel, wide or narrow, to be dammed. But did any boy ever think of building a dam on end and then tipping it over? An inventive American engineer, Isham Randolph, who became famous by his work on the Chicago drainage canal, has tried this idea on the Niagara river 200 yards above the Horseshoe fall and made a remarkable success of it.

Of course an ordinary dam could not easily be built in the fiercely racing currents of Niagara hurrying to plunge over the fall. So Mr. Randolph decided to build his dam on end on the very edge of the river. It was not meant to do more than raise the water level a few inches, so as to prevent water scarcity in winter for the Canadian town of Niagara Falls when the ice jam comes on. A dam seven feet or so high was enough and fifty feet long. Turned on end, this meant a column fifty feet high and seven feet four inches square. The clever engineer used concrete as the cheapest, easiest and least corrosive material. But any column of any material was certain to break in the shock of falling. How was that to be provided for?

Easily enough, the inventive builder argued. Up the middle of the concrete column, like a huge backbone, he ran a strong iron chain weighing about 800 pounds. The whole column weighed some 200 tons. At intervals eight feet apart all the way up it along the landward face wooden wedges were inserted, so that in breaking it would follow these lines and break into regular blocks, held together by the chain. The plan was audacious, but entirely practical—a true "Yankee notion." On Nov. 9, 1905, the finished dam was sent flying over by three hydraulic jacks. Amid the breathless interest of a large crowd of spectators the concrete column fell, splashed and settled. When splash and spray subsided there it stretched, broken at the destined points, tilted a trifle irregularly in the middle, where the river bed was higher, but quite effectual. The depth of water increased ten inches at once. The "obelisk dam" was a success.—William Rittenhouse in Forward.

TELEGRAPHIC BREVITIES.

The severest storm of the winter is raging throughout Kansas and Western Missouri with temperatures at or near zero.

G. Sinclair Moulton, a well-known hotel man, committed suicide by shooting in the Grand Union hotel in New York city.

Moses H. Sydenham, one of Nebraska's earliest pioneers, died suddenly at Kearney, Neb., of heart failure, aged eighty years.

George W. Denham, an old-time actor, died from apoplexy on the street in New York city while on his way to see his physician.

George Harris, colored, was found frozen stiff in a room in the lodging-house at St. Paul where he had been employed as a janitor.

David P. Rhoades, one of the founders of the New York Tribune and assistant of Horace Greeley, is dead at Stratford, Conn.

MARKET QUOTATIONS.

Minneapolis Wheat.

Minneapolis, Feb. 2.—Wheat—May 80½¢; July, 80½¢ @ 80¾¢; Sept., 78½¢ On track—No. 1 hard, 85¼¢; No. 1 Northern, 83¼¢; No. 2 Northern 81¼¢; No. 3 spring, 78½¢ @ 79¼¢.

St. Paul Union Stock Yards.

FOOLING THE PEOPLE

Abraham Lincoln said you can fool some people all the time, you can fool all the peoplessome times, but you can't fool all the people all the time.

Bell Coffee

is the coffee that stays by the people all the time. It is sold in moisture and dust proof packages, a special blend of the best South American Mocha and Java, and is selected by a special agent of J. H. Bell & Co., from private growth plantations. It is superior to any offered heretofore at a moderate price.

People have found that Bell Coffee is a little better than most coffee at the same price, and while some merchants may refuse to sell it, because they can make more on something else.

People who insist on having Bell Coffee will find that merchants can supply them.

Sixty-one Bodies Recovered.

Charleston, W. Va., Feb. 4.—Up to midnight sixty-one bodies had been recovered from the Stuart mine. Twelve are still in the mine. The property loss is estimated at \$30,000.

THE DAILY DISPATCH brought to your door for only 40 cents per month

Thin Blood Makes a Weak Body.

But You Can Enrich the Blood and Send New Vigor Through the System by Using Dr. A. W. Chase's Nerve Pills.

Every nerve and every muscle of the body depends on the blood for nourishment. Thin, watery blood makes weak nerves and flabby muscles. The heart fails in its work of forcing blood through the body; the lungs, the stomach, the liver, kidneys and bowels all do their work in an imperfect way, and you drag about weak, tired and miserable.

The use of Dr. A. W. Chase's Nerve Pills make a radical change in every human system that is starved and impoverished for want of rich, pure and life-sustaining blood.

Gradually, certainly and naturally they instill new vigor into every nook and corner of the body, restore health and vitality, and put a new joy into life.

Note your increase in weight while using Dr. A. W. Chase's Nerve Pills; 50 cents a box, at all dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.
